### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andrew Oltmans on 6/29/06.

The application has been amended as follows: claims 1-8 and 12 have been canceled as they are drawn to a non-elected invention.

The following is an examiner's statement of reasons for allowance: The prior art (US Patent No. 5,514,482) teaches e-beam physical vapor deposition of rare earth metal oxides on turbine engine components from metal ingots, but it does not teach or reasonably suggest using mischmetal oxide in combination with a second rare earth element oxide. The addition of mischmetal oxide to the coating is not taught and would not be obvious. Mischmetal also appears to have the disadvantage of being expensive (US Patent. No. 3,801,311 column 1 lines 35-46) which would be motivation that it is not an obvious choice for the source of rare earth oxide material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Howard E. Abramowitz whose telephone number is 571-272-8557. The examiner can normally be reached on monday-friday 9:00-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy H. Meeks can be reached on 571-272-1423. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
